System Engineer

A system engineer with overall 7+ years of experience in technical support ,worked as system administrator on 24x7 critical production and handles IT related installation ,configuration, troubleshooting and communication skills. Working in applications packaging factory. Skilled in Microsoft Office, Active Directory, Azure and SCCM.Skilled in application packaging and deployment using InstallShield,Orca and PSADT(PowerShell scripting), with expertise in troubleshooting and SCCM admin & Microsoft Intune . Proven ability to enhance efficiency through automation and manage deployment in Windows and Azure environments.

WORK EXPERIENCE - Tata Consultancy Services - 7+ YEARS

System Engineer

Tryg • Coimbatore
10/2025 – 01/2026

- Packaged and deployed 50+ enterprise application packages using InstallShield, Orca, and PSADT (PowerShell App Deployment Toolkit), ensuring zero-touch silent installations.
- Performed compatibility testing and UAT for application packages across Windows 10, Windows 11, and Azure Virtual Desktop (AVD) environments, reducing post-deployment incidents.
- Created and published IntuneWin (.intunewin) packages for seamless deployment via Microsoft Intune / Microsoft Endpoint Manager (MEM), supporting Windows Autopilot provisioning and modern zero-touch device management.
- Managed and tracked ITSM Change Requests (CR) through the change management lifecycle, ensuring compliance with ITIL standards and stakeholder approvals.

System Engineer

Lion • Kochi
05/2025 - 10/2025

- Packaged and deployed enterprise application packages using Flexera AdminStudio, InstallShield, Orca, and PSADT (PowerShell App Deployment Toolkit), streamlining software delivery across the organization. Automated packaging workflows using PowerShell and Batch scripting, reducing manual packaging effort by ~40% through reusable script templates.
- Monitored and tracked application package deployment status via SCCM (Microsoft Endpoint Configuration Manager / MECM) console, generating and distributing compliance reports to stakeholders. Conducted compatibility testing and UAT for application packages across Windows 10 and Windows 11 environments, ensuring zero post-deployment failures.
- Performed in-depth troubleshooting of application conflicts, DLL issues, and registry errors during the packaging process, resolving ~95% of issues without escalation. Provided ongoing application lifecycle management (ALM) support by re-packaging and updating existing applications into standardized deployment-ready formats.
- Created and deployed SCCM Packages and Applications via SCCM Console and PowerShell automation scripts, improving deployment speed and consistency. Resolved packaging and deployment issues on customer production environments, maintaining SLA compliance and minimizing business disruption.

System Engineer

BOEHRINGER INGELHEIM PHARMACEUTICALS,INC • Kochi
03/2022 - 04/2025

- Served as Application Packaging Consultant and Packager for a global pharmaceutical client, managing end-to-end packaging lifecycle for 50+ enterprise applications across a regulated GxP environment.
- Created, captured, and validated MSI and MST (transform) files for vendor executables using PSADT (PowerShell App Deployment Toolkit), InstallShield, Orca, and Repackager, ensuring silent, zero-touch installations.
- Developed PowerShell launcher scripts and implemented Active Setup for per-user application deployment, enabling consistent software delivery across Windows 10/11 endpoints. Automated packaging and deployment tasks using PowerShell scripting, reducing manual intervention and improving deployment consistency across enterprise endpoints.
- Managed packaging project workflows, incidents, and service requests using ServiceNow, Topdesk, WFM, and DameWare, ensuring delivery within defined SLA and ITIL standards.Collaborated with cross-functional teams including infrastructure, security, and vendor teams to validate and certify application packages before production release.

Assistant System Engineer

FLSmidth • Kochi

04/2020 - 03/2022

- Handled calls and chatbot inquiries for diverse regional customers, ensuring effective communication.
- Executed first-level troubleshooting for various technical issues across platforms.
- Utilized Remedy, ServiceNow, and Topdesk for incident and service request management within SLAs.
- Performed troubleshooting for Office365 applications to resolve user issues promptly.
- Implemented machine policies, group policies, and registry edits to facilitate software deployment.
- Administered user accounts in Active Directory, including creation, modification, and revocation of access.
- Managed organizational units and distributed group assignments efficiently.
- Configured distribution lists and shared mailboxes to enhance collaboration.
- Managed on-premises, hybrid, and Azure Exchange environments efficiently.
- Rejoined domains and Azure Active Directory as needed.
- Streamlined installation processes for peripheral devices to improve operational efficiency.

Graduate Trainee

Telenor, Irdeto, DNA, Reidel

11/2018 - 03/2020

- Provided L1 technical and application support for Telenor, Irdeto, DNA, Reidel clients.
- Utilized tools such as Remedy, ServiceNow, and TopDesk to address technical issues.
- Supported engineering-related tools including Oracle, SolidWorks, AutoCAD, Enovia, and Epicor. Managed user accounts in Azure
- Exchange and Active Directory for enhanced accessibility.

Skills

AWS, Azure AD & Exchange, Service Now, Topdesk Dam ware, Cloud(AWS), Application packaging, Web developer, SCCM., Installshield, PSADT-Powershell script, Advanced Installer knowledge, ServiceNow ,Topdesk , WFM platform experience, Orca, Microsoft intune

---

Education

Bachelor of computer application

Avinashilingam University. • Coimbatore

06/2015-05/2018

Certificates

Attended seminar on ANDROID APPLICATION DEVELOPMENT, Intune for Windows training - Fully updated 2025-Udemy, IITM Pravartak Full Stack Dev — GUVI/HCL (Certificate on LinkedIn)

Awards

On the Spot , Applause Award , Best team award

Projects:

- Mermory Game application
- Notes App
- Kanban Board
- Learning Management System
